

MASKS AND TOOL KITS – Partnering for Distribution to Our Community

For the new Health Plan of San Joaquin Campaign: **STEP UP! Help restore our community**

Masks and Tool Kits

Affordable face covers can be a challenge for many. Because this presents a community-wide risk, including for HPSJ members, and hinders safe reopening including medical practices, the plan has invested in this personal PPE. Health Plan of San Joaquin has enlisted over 70 organizations in San Joaquin and Stanislaus counties – from churches, and schools, to senior centers, mom-&-pop groceries, food banks, subsidized housing, many CBO (community-based organization) partners, and HPSJ providers – to distribute HPSJ-branded face masks and informational tool kits to their constituents and customers.

Additional agencies in both counties are now in the process of planning to help distribute the HPSJ Covid educational materials and masks to their constituents and clients. An opportunity for more agencies to sign up as Step Up! Partners will soon be available.

Following is the list of HPSJ community distribution partners as of 8/19/20.
