

# ULTRA CLOROX GERMICIDAL BLEACH

[Enlarge Photo»](#)

## The First and Only Product Registered by the EPA to Kill *C. diff* Spores

- 6.15% sodium hypochlorite formula is more concentrated than many other bleach products
- Using 1:10 dilution ratio, it exceeds the 5000ppm required to kill most pathogens
- Complies with OSHA guidelines for bloodborne pathogens
- Higher concentration and super-filtration processes ensure long shelf life
- Registered for use in all 50 U.S. states
- Safe on most nonporous surfaces

Ultra Clorox Germicidal Bleach is the first and only product to obtain federal EPA registration for killing *Clostridium difficile* *C. diff* spores on hard, nonporous surfaces when used as directed. It complies with their standards for product efficacy, usage safety, shelf life, label strength, processing, and raw materials. Add confidence to your disinfecting regimen by ensuring your bleach adheres to these rigorous standards.

## Kill Claims / Contact Times

### 2 Minutes

Aspergillus niger  
Candida albicans  
Enterococcus faecalis, vancomycin resistant (VRE)  
Escherichia coli with ESBL\* resistance  
Escherichia coli O157:H7  
**HIV type 1**  
Legionella pneumophila  
Pseudomonas aeruginosa  
Rotavirus  
Salmonella enterica  
Shigella dysenteriae  
Staphylococcus aureus  
Staph. aureus, methicillin resistant (MRSA)†  
Streptococcus pneumoniae  
Streptococcus pyogenes  
Trichophyton mentagrophytes

### 5 Minutes

Adenovirus type 2  
Avian Influenza A  
Cytomegalovirus  
Human Coronavirus  
Human Hepatitis A virus  
**Human Hepatitis B virus**  
Human Hepatitis C virus  
Herpes simplex virus type 2  
Influenza A virus  
**Mycobacterium bovis (Tuberculosis)**  
Norovirus (as Feline Calicivirus)  
Parainfluenza type 1  
Rhinovirus type 17  
Respiratory syncytial virus (RSV)  
Rubella virus  
Varicella-zoster virus

### 10 Minutes

Canine parvovirus  
*Clostridium difficile* spore  
Feline panleukopenia virus

\* Extended Spectrum Beta Lactamase

† Includes CA-MRSA Genotypes USA 300/400
